STRATO

HI-MACS® Strato uses bold directional veining to create eye-catching compositions that add a modern, sleek look to any space.

Note: The pattern in the images may differ from the sheet that will be installed.

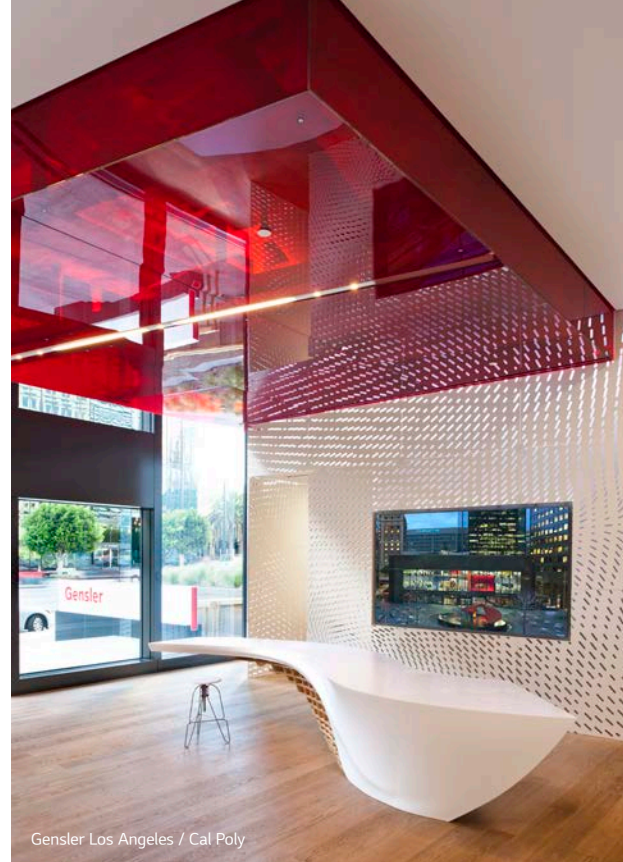

Strato Cloud Z001 ☆★ **NEW** Strato Sand Z002 ☆★ **NEW** Strato Wind Z003 ☆★ **NEW**

The installation image above is representative of one fabrication approach. Your installation may vary from this image and should be designed with your fabricator to meet your specific expectations.

☆ Noted colors are manufactured outside of the USA.

★ Noted colors exhibit increased movement and variation of color and pattern which cannot be fully recognized on some samples. Seams may be noticeable in these colors.

Gensler Los Angeles / Cal Poly

HI-MACS® BENEFITS

Unlimited Design Options

HI-MACS® can be thermoformed, cut, drilled, shaped, routed and joined together to accommodate a multitude of applications.

Hygienic & Non-porous

HI-MACS® is a non-porous surface and safe for food preparation. It is certified by NSF (National Sanitation Foundation). HI-MACS® is approved for commercial food service, medical facilities, schools, hospitality and other businesses where hygiene is essential.

Inconspicuous Seams

When two sheets are combined, HI-MACS® can look like a continuous material.

Easy Care

HI-MACS® is easy to clean and does not need sealing or special products for maintenance.

Renewable

HI-MACS® can be restored to its original state like it is new. Deep scratches or damage may be restored by a certified professional.

Environmentally Friendly

The HI-MACS® production facility has reduced water waste output substantially each year. By re-purposing previously discarded materials and deploying an aggressive waste analysis and separation process, the solid waste output has been reduced by almost 90%.

THE NEW GENERATION OF INSPIRATION

There are no limits - The new generation of inspiration is here. Design has no boundaries and imagination leads the way. From functional kitchen surfaces and spaces to 3-dimensional installations, the unique properties of HI-MACS solid surface material allows you the ability to create what once could only be dreamed.

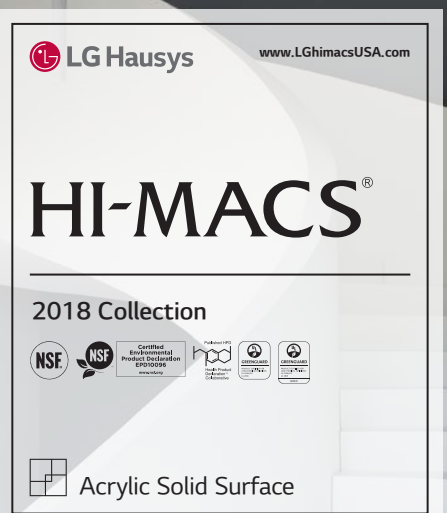

WWW.LGHIMACUSA.COM

CALL 866.544.4622

Not all HI-MACS® colors are made in the USA. USA colors are made of USA and imported parts. Darker colors tend to require more attention than lighter colors to maintain a uniform finish. Printed representation of colors may vary from actual samples. Please view the actual product prior to purchase. Search for LG Hausys on NSF.org to see the listing of the certified Viatera.
